Disinfectants for use against COVID-19 in the ARTG for legal supply in Australia

12 August 2020

The Therapeutic Goods Administration (TGA) has recently received a number of enquiries seeking to know which disinfectants have been entered into the Australian Register of Therapeutic Goods (ARTG) for use against COVID-19.

Claims that a disinfectant has an effect against any virus must be expressly permitted by the TGA before being used in consumer advertising (including on the label). In response to the COVID-19 pandemic, the TGA has [permitted SARS-CoV-2 and COVID-19 virus claims \(//www.tga.gov.au/advert-exempt/therapeutic-goods-prohibited-representations-disinfectants-covid-19-permission-2020\)](http://www.tga.gov.au/advert-exempt/therapeutic-goods-prohibited-representations-disinfectants-covid-19-permission-2020). The following list is comprised of disinfectant products that have been entered into the ARTG with specific claims against SARS-Cov-2 (COVID 19) or COVID-19 on the product label.

List of disinfectants for use against COVID-19 in the ARTG for legal supply in Australia
